DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414. The Supplement Oath/Declaration fails to specifically identify a single word, phase, or/and expression in an original claim as a description of an error or errors, and how it renders the original patent wholly or partly inoperative or invalid.

According to the Applicant's Supplement Oath/Declaration, the Applicant stated that "...the original prosecuting attorney did not appreciate the full breath of the invention with respect to the prior art, and therefore claimed too narrowly..." or "the by reason of the patentee claiming more or less than he had the right to claim in the patent". However, nowhere in the Oath/Declaration stated a specific error or errors, which made the original patent wholly or partly inoperative or invalid as required and/or stated under 37 CFR 1.175(a)(1) and MPEP § 1414. The specific error or errors has/have to be specific with respect to the one error that the Applicant relies upon for the reissue.

It is further noticed that it is not sufficient for an oath/declaration to merely state, "this application is being filed to correct errors in the patent which may be noted from the changes made in the disclosure." Rather, the oath/declaration must specifically identify an error. In

addition, it is not sufficient to merely reproduce the claims with brackets and underlining and state that such will identify the error. See In re Constant, 827 F.2d 728, 729, 3 USPQ2d 1479 (Fed. Cir.), cert. Denied, 484 U.S. 894 (1987). Any error or errors such as a single word, phase, or/and expression in the original claims must be identified by reference to the specific claims and the specific claim language wherein lies the error. [Emphasis added]

2. Claims 18-24, 26-39 and 41-48 are rejected as being based upon a defective reissue Oath/Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) defective error(s) in the reissue Oath/Declaration is set forth in the discussion above in this Office action.

Response to Arguments

- 3. In response to the Applicant's argument stated under header "Amendments to claims" on page 14, wherein the Applicant stated as followings:
 - "...Applicant respectfully notes that this appears to be a misinterpretation of 37 C.F.R. 1.173 (Nov. 22, 2004 Revision), the relevant portion reproduced below:
 - "2) Claims. An amendment paper must include the entire text of each claim being changed by such amendment paper and of each claim being added by such amendment paper. For any claim changed by the amendment paper, a parenthetical expression "amended, " "twice amended, " etc., should follow the claim number. Each changed *patent* claim and each added claim must include markings pursuant to paragraph (d) of this section, except that a patent claim or added claim should be canceled by a statement canceling the claim without presentation of the text of the claim." {Emphasis added}"

In response to the Applicant's argument above and because of argument directly concerning to case law, the Examiner has presented such argument to the "Panel of Reissue" members for review and response.
